1. INTRODUCTION

1.1 The Government of St. Vincent and the Grenadines (GOSVG) has received funding from the World Bank (WB) for the implementation of the Human Development Service Delivery Project. The project is designed to strengthen the quality of service delivery in education, improve the efficiency of social protection systems, and improve the effectiveness of labour market systems.

1.2 The project will be implemented by the Ministry of Finance, Economic Planning, and Information Technology (MoFEP). The other participating ministries are the Ministry of Education, National Reconciliation, and Ecclesiastical Affairs (MOE); the Ministry of National Mobilization, Social Development, Family, Gender Affairs, Persons with Disabilities and Youth (MoNM); and the Ministry of Agriculture, Forestry, Fisheries, Rural Transformation, Industry and Labour (MoA).

1.3 The project is structured around the following four (4) components:

- Component 1 - Strengthening Pedagogy for Basic and Special Needs Education
- Component 2 - Building Responsive Social Protection Service Delivery Systems
- Component 3 - Strengthening Labour Market Systems and Improving Skills Training of Poor and Vulnerable Populations
- Component 4 - Project Implementation, Monitoring and Evaluation

1.4 St. Vincent and the Grenadines (SVG) is a Small Island Developing State (SIDS)1 which is characterised by an open economy, high risk to natural disasters and acute vulnerability to external economic shocks. As such, it is affected by high levels of volatility in its economic growth patterns which often have debilitating effects on livelihoods, particularly for the poorest. The MoNM is mandated to deliver a wide range of social protection programmes and services to respond to a variety of risks faced by the poor and the vulnerable. However, programme delivery

is not guided by an overarching Social Protection policy and/or strategic focus. In the absence of
guiding policy parameters and a strategic framework, priorities and objectives for the sector are
not clearly articulated, and efforts to reach the poor and the vulnerable are uncoordinated and
fragmented.

1.5 Over the past fifteen years, the GoSVG, through its Public Sector Reform Programme
(PSRP), has been committed to remodelling the systems governing the provision of public goods
and services across government institutions and agencies. In keeping with this commitment, the
GovSVG recognizes the urgent need for the development of a comprehensive Social Protection
Policy and Strategy, which will delineate the way forward and strengthen its capacity to respond
to the needs of the poor and those living at the margins.

1.6 Furthermore, whilst the MoNM continues to improve its programming and the rate of
implementation, the GoSVG is cognizant that there are fundamental weaknesses in the delivery
of national social protection services.

1.7 The GoSVG recognises that to be effective, a country’s social protection architecture must
be built on a comprehensive social protection policy which addresses the main issues and gaps
of the poor, and that would ensure developmental gains are safeguarded in the wake of macro-
level change, including natural disasters and external economic shocks. Thus, the development
of a National Social Protection Policy and a detailed strategy for its implementation are
imperative if St. Vincent and the Grenadines is to pursue social and economic development,
address poverty and social exclusion, and achieve the global Sustainable Development Goals
(SDGs).

1.8 The National Social Protection Policy should ensure more efficient and effective use of
resources, strengthen management and administrative systems, and ensure greater progress
towards a more inclusive form of social protection. In other words, ensure that basic income and
social services are made available to the country’s poorest and most vulnerable people and
eventually the entire population. The development of this policy shall be informed by analysis of
data collected through an extensive review of existing documents and surveys on social
protection, interviews conducted with key stakeholders clarify who are the stakeholders,
national surveys, and reflections based on international best practices on social protection
policies regionally and internationally.

1.9 Consequently, under the Human Development Service Delivery Project, the contracting
of an individual consultant to develop a National Social Protection Policy and Strategic Plan for
the GoSVG will be financed, to ensure the effective implementation of programmatic initiatives
and services delivered by the MoNM. This may include where applicable review and changes in conceptual design.

2. **OBJECTIVES**

2.1 **Overall Objectives**

The main objective of this consultancy is to develop a National Social Protection Policy and an accompanying Strategic Action Plan for the GoSVG, to ensure effective implementation of programmatic social protection initiatives and services through the MoNM.

2.2 **Specific Objectives**

2.2.1 To develop a National Social Protection Policy that:

- Defines guiding principles for social protection and policy design.
- Closes main social and human capital gaps hampering further improvements of standards of quality of life of the population, specially of the poor.
- Defines strategic goals and policy priorities in the areas of including but not limited to health, education, social security, social assistance and agriculture as well as in the event of shocks and disasters which aligns with the public assistance programme offered by the GoSVG through the MoNM.
- Reduces fragmentation and increases the coordination, efficiency and efficacy of the MoNM and their interventions.
- Complements and aligns with national priorities.

2.2.2 To develop a five-year Comprehensive Strategic Action Plan, which shall define the implementation of the National Social Protection Policy, with short, medium to long-term actions to be executed incrementally and in-line with the country’s priorities and evolving capacity and resources.

3. **SCOPE OF SERVICES**

3.1 Hold an Inception Meeting with the Client to review the Terms of Reference and ensure that the Consultant and the Client are aligned on the desired outputs and outcomes, roles, and responsibilities of each party.

3.2. Perform a thorough desk review and analysis of the following:
• Findings and data of the enhanced country poverty assessment (eCPA) of 2018, inclusive of those from the Institutional Assessment (IA) and Participatory Poverty Assessment (PPA) sections, and data from other relevant national household surveys, institutional indicators, to gain an understanding of the dimensions of poverty in SVG.

• Existing national policies and strategic plans to determine the policy context.

• Legislation and international protocols to which the GoSVG has committed.

• Existing social protection programmes and related interventions.

• All key documentation related to the formulation and implementation of the HDSD Project.

*Key documentation for purposes of this assignment is shown at appendix 1.*

3.3. Based on the above desk review and analysis the consultant will:

• Define main social and human capital gaps and challenges of the population, specially of the poor.

• Conduct a mapping of existing social protection programmes within the MoNM and interventions that includes for each programme: target population, benefits, regulatory framework, targeting mechanism, coverage, budget, indicators and, if there are any evaluations (Impact or processes).

• Identify problems of design, operation and/or gaps in coverage of existing social protection programs and interventions, to tackle the main challenges identified and to meet the varied needs of the population more effectively, specially of the poor.

• Identify if any, needs of greater consistency and complementarity of the efforts.

• Undertake a stakeholder mapping (government, civil society, private sector) of key institutions and organisations, as agreed with the Client, involved in delivering social protection programmes.

3.4 Conduct and facilitate a series of consultative meetings and/or workshops with key ministries and stakeholders to present preliminary results and build consensus on the main policy areas to be identified. The meetings should also be used to categorise strategic goals and objectives, and to present the latest international models of ‘good practices’ regarding Social Protection Policies and accompanying Strategic Plans.

3.5 Conduct a series of focus group sessions, with communities and beneficiaries to gather updated information on the socio-economic status of various communities and perceptions of the effectiveness of local social protection programmes, including those of social assistance, previously collected and accessed by the PPA.
3.6 Develop the draft National Social Protection Policy. The policy should include, at minimum, sections on (i) legal or policy frameworks which should govern or inform the social protection policy; (ii) guiding principles iii) policy priority areas and strategic goals; (iv) institutional arrangements to ensure proper coordination; (v) full range of policy measures under consideration, specifically non-contributory programmes; (vii) financing and fiscal sustainability; and (viii) M&E considerations.

3.7 Paralleling activity (3.6), the consultant shall develop a draft five-year Strategic Action Plan for the implementation of an effective Social Protection System. The Strategic Action Plan should include:

- Short and medium to long-term actions. These actions shall include if needed, the proposals of reforms to legislation and to the conceptual design and/or operation of programmes and interventions to improve efficiency, efficacy, transparency and/or coverage of the poor.

- The assessment of the financial resources necessary to implement these actions. Activity to be done in collaboration with the MoFEP.

- An integrated Monitoring and Evaluation (M&E) framework to guide the assessment of the National Social Protection Policy and Action Plan, as well as of social protection programmes’ results and delivery. The M&E should include indicators, targets and procedures as well as indicate the ministries/agencies responsible.

3.8 Present draft Policy and Strategic Action Plan to key government institutions and stakeholders, as agreed with the Client, for ratification prior to finalisation of documentation.

3.9 Conduct and facilitate a series of validation consultations/workshops with relevant ministries and agencies and other key stakeholders who have contributed to the development of the policy and strategic plan for final approval.

3.10 Submit and present finalised Social Protection Policy and accompanying Strategic Action Plan to the Ministry of Finance, Economic Planning, Sustainable Development, and Information Technology, MoNM and other key Ministries and agencies, and stakeholders, for approval by the Cabinet.
