

St. Vincent and the Grenadines Meteorological Services Argyle International Airport

The Government of St. Vincent & the Grenadines

Advisory # 10 on Tropical Storm Bret

A TROPICAL STORM WARNING remains in effect for St. Vincent and the Grenadines (SVG)

Issued at 8:00 am, Friday June 23rd, 2023

In this case, a Tropical Storm Warning means that tropical storm conditions are occurring within the warning area.

At 8 am, the center of the Tropical Storm Bret was located near latitude 13.4° North; longitude 63.6° West, or approximately 160 miles (260 kilometers) west of SVG. Tropical Storm Bret is moving towards the west at 18 mph (30 km/h) with maximum sustained winds of 60 mph (95 km/h) with higher gusts.

A Flash Flood Warning is in effect for SVG

Occasional moderate to heavy showers, periods of rain, thunderstorms and storm-forced winds will continue across SVG. Rainfall stations across the mainland have already recorded in excess of 6 inches of rainfall. Additional rainfall accumulations of 2 to 4 inches (50 to 100 millimeters) with isolated higher amounts is predicted. A flash-flood warning remains in effect until further notice. **Residents and motorists in areas prone to flooding and landslides or near rivers and streams should take action to protect all life and property.**

A Small-Craft and High Surf Warning is in effect for SVG

Marine conditions are expected to be rough with sea-swells ranging between 3.0m (10ft) to 4.0m (13ft) and possibly higher, along northern and north-eastern coastlines. A small craft and high surf warning is in effect until further notice. **All vessels should remain in port. Sea-bathers are advised to stay out of the water. Residents in low lying coastal areas should take action to protect life and property.**
